Your Health Records are held in accordance with the data protection act. Information about you will not be given to outside agencies without your prior consent.

HOW TO MAKE AN APPOINTMENT

Urgent Appointments: We will try and see urgent appointments the same day where possible. Sometimes a doctor may have to call you back before bringing you into the surgery. Before requesting an urgent appointment, please decide whether your GP is the best person to see or whether an ambulance, visit to A & E or the walk-in centre might be more appropriate.

Same Day Appointments: We have appointments to offer on the same day for patients whose problems cannot be dealt with over the telephone. These are available from 8am by phone only in the morning otherwise you can access our online service.

Pre-Bookable Appointments: These are available up to 3 weeks in advance, again you can book an appointment by telephoning the surgery or using the online service.

N.B. Nurses appointments are all pre-bookable but not available using the online appointment system.

Home Visits: If you are housebound and require a doctor to come out to you, please call the surgery before 9.30am. Leave your details with the receptionist and a doctor will call you back and assess the situation.

Doctor Triage: This service is available every morning. You will be able to speak with a doctor regarding your medical condition, instead of coming into the surgery. This service is only available in the morning and **is not available for test results.** Leave your details with the receptionist and the doctor will telephone you back.

Pre-bookable Telephone Consultations: can be booked in advance. As the doctor will have to fit these calls around their surgery you will only be told either the morning or afternoon and not given a precise time slot. Please ensure you give the right telephone number.

CANCELLATIONS

N.B if you fail to attend an appointment without just cause or notification you may be sent a letter and, if you repeat this behaviour, you could be removed from our register of patients.

PRESCRIPTIONS

The Practice requires **two full working days** (48hrs) in order to complete prescription requests.

You can order your prescription several ways; by handing in at the reception, faxing, posting, using our online service or whereby a chemist will order it for you.

N.B., we do not accept telephone requests.

Prescriptions can be sent electronically to the chemist of your choice using the EPS service. Register at your chemist for this service. If you enclose a S.A.E. we will post your prescription out for you, otherwise you will need to arrange collection. **N.B. As a patient it is your responsibility to ensure you have enough medication to last until your prescription is completed.**

The doctors retain the right to refuse a repeat prescription, in part or in full, or to request an appointment before issuing if in their medical opinion it is necessary to do so.

TEST RESULTS

Please telephone the surgery after 2.30pm for results of your blood test, X-Rays, smears etc.

N.B. the receptionist is not medically trained and can only confirm if the result is OK or if you need to see/speak to a doctor. We can only give results to the patient or parent/guardian in a case of a minor.
